

Quality, environmental, health and safety protection, and energy policy

In addition to the principles of our mission statement, Rohrwerk Maxhütte commits itself to implementing and maintaining an integrated management system, consisting of a quality management system according to IATF16949 / ISO 9001, an environmental management system according to ISO 14001, and an energy management system according to ISO 50001, as well as the acceptance of the ISO 45001, taking account of relevant interested parties:

- Expedite continuous improvement processes in all areas, to improve product and process quality, to increase energy efficiency, to prevent environmental pollution and straining working conditions
- Abide applicable laws, regulations and customer requirements,
- Determine and monitor measurable quality, environmental and energy objectives, as well as health and safety protection issues, and evaluate the results,
- Communicate these goals with the relevant interested parties considering their needs and expectations
